Jonathan James Wagner

CREATIVE DESIGNER + TECHNOLOGIST · OPEN-SOURCE DEVELOPER · AI DATA ANALYST

San Antonio, TX · jonathanjameswagner@proton.me · linkedin.com/in/jonathanjwagner · github.com/frostmute · jonathanjwagner.netlify.app

PROFESSIONAL SUMMARY

Dual-specialized Creative Designer and Technology Expert with 20+ years of experience delivering visual, technical, and AI-driven solutions. Skilled in AI training, data annotation, model evaluation, open-source development, IT support, and digital production. Produced bespoke artwork used by Google Data Centers, Cisco, The Ellen Show, the San Antonio Spurs, Joint Base San Antonio, and U.S. Air Force leadership teams (via employer). Currently enrolled full-time in an AAS in Artificial Intelligence Software Development.

CORE COMPETENCIES

- **AI and Technical:** AI Training, Data Annotation, Model Evaluation, Python, Open-Source Tools, Windows, Linux, Hardware Repair, Network Troubleshooting, Active Directory, Help Desk Systems, Virtualization, Remote Support, Documentation, Workflow Optimization
- **Creative and Digital:** Visual Design, Art Direction, Adobe Photoshop, Adobe Illustrator, Motion Graphics, Video Editing, Typography, Web Design, Brand Development, Social Media Management
- **Professional Strengths:** Customer Communication, Team Leadership, Process Improvement, Time Management, Research, Collaboration

PROFESSIONAL EXPERIENCE

AI Data Analyst & Annotator · DataAnnotation.Tech

2024 – Present

- Train and refine AI/ML systems through high-accuracy data annotation, labeling, and quality review
- Configure annotation environments, apply new tools and techniques, and maintain detailed documentation
- Collaborate with engineers to improve model performance, dataset consistency, and workflow efficiency
- Identify data issues, escalate blockers, and ensure timely delivery of project milestones

Independent Open-Source Developer

2022 – Present

- Design, build, and maintain open-source developer tools and Obsidian plugins in TypeScript and JavaScript, including a Raindrop.io-to-Markdown bookmark/highlight importer (140+ GitHub stars) and an Are.na-to-vault content importer
- Architect a local-first, metadata-driven portfolio/blog framework, and a lightweight self-hosted personal knowledge base application
- Maintain a public GitHub presence (github.com/frostmute) covering plugin architecture, data import/sync pipelines, and front-end tooling
- Manage full project lifecycle independently: requirements, architecture, implementation, documentation, and community/user support for public releases
- Apply prior technical background (networking, systems, workflow optimization) to software design decisions around data structures, sync reliability, and cross-platform compatibility

Visual Design, Brand & Technology Consulting · Freelance & DeepspaceGhost.com 2021 – Present

- Own and operate an independent design/apparel brand end-to-end: original artwork and print design, e-commerce storefront, POS operations, inventory, and visual merchandising
- Deliver freelance design and technical services to outside clients in parallel: brand systems, web design, motion graphics, and marketing assets, alongside network administration, troubleshooting, and documentation/process-optimization consulting
- Manage social media, content, and brand consistency across storefront and client channels
- Handle full customer-facing operations — sales, service, and support — across both retail and consulting work
- Apply the same open-source and web tooling used in software projects to build and maintain client-facing digital assets

Production Manager · CelebrateExcellence.com 2013 – 2021

- Led creative production team delivering high-detail visual designs for military and law-enforcement clients
- Produced bespoke artwork used by Google Data Centers, Cisco, The Ellen Show, San Antonio Spurs, San Antonio Rampage, City of San Antonio Tricentennial, Joint Base San Antonio, USAF Thunderbirds Showline Crew, and numerous USAF Command Chiefs, First Sergeants, and senior military leaders (via employer)
- Designed specialized insignia and regulated artwork for San Antonio Police Department, San Antonio Fire Department, Bexar County Sheriff's Office, Police Chief William McManus, and Sheriff Javier Salazar
- Improved workflows and output efficiency; expanded e-commerce reach through SEO strategy
- Managed full product lifecycle from concept to delivery, ensuring quality and regulatory compliance

Technical Support & Repair Technician · 210Geeks.com 2010 – 2013

- Performed hands-on diagnostics and repair across desktops, laptops, and peripherals: hardware failures, component replacement, malware/virus removal, OS reinstalls, and data recovery/backup
- Refurbished used and trade-in systems for resale — testing, cleaning, upgrading components, and reimaging for retail sale
- Handled front-counter sales and customer intake: assessing issues, quoting repairs, upselling upgrades and accessories, and processing walk-in and phone transactions
- Provided on-site service calls for home and small-business clients, including network setup, Wi-Fi troubleshooting, and printer/peripheral configuration
- Built and configured custom PCs to customer specifications; set up new systems with software, drivers, and data migration from old machines
- Delivered remote and in-shop technical support, managing ticket queues and following up to ensure resolution and customer satisfaction
- Maintained shop inventory of parts and refurbished stock; sourced components for repairs and custom builds
- Reduced average repair turnaround time through improved intake documentation and repair-tracking workflow

EDUCATION & CERTIFICATIONS

- **Maestro College** — AAS, Artificial Intelligence Software Development. In progress, full-time. Coursework: Machine Learning Fundamentals, Python Programming, AI Systems Architecture, Data Structures, Algorithms. Goal: MBA in Computer Science
- **ClimbHire IT Support Program** — CompTIA A+ · Google IT Support Professional (2024)
- **AppBrewery Web Development Bootcamp** — Web Development Certificate
- **Adobe Certified Professional** — Photoshop · Illustrator

TECHNICAL TOOLS

- **Development & Version Control:** Git, GitHub, VS Code, Node.js, npm/yarn, TypeScript, JavaScript, Obsidian Plugin API, Markdown
- **AI & Data:** Python, data annotation/labeling platforms, LLM output evaluation tools, spreadsheets/data review tools
- **Creative & Production:** Adobe Creative Cloud (Photoshop, Illustrator, Premiere Pro, After Effects), CorelDRAW, print/vector production and cut-file software, embroidery/engraving prep software
- **IT & Systems:** Windows, Linux, macOS, Active Directory, virtualization tools (VMware/VirtualBox), remote support platforms (TeamViewer/AnyDesk-type tools), disk imaging & data recovery tools (Clonezilla/Acronis-type tools), help desk/ticketing systems, network diagnostic utilities
- **Business & E-Commerce:** Square POS, e-commerce/storefront platforms (Shopify/Etsy-type platforms), Google Search Console, social media management/scheduling tools, inventory management tools
